

Questions

1. Most types of paper can be recycled. Newspapers have been recycled profitably for decades and recycling of other paper is growing. It's important to know what you are buying in a paper product, for that reason virtually all paper products should be marked with the percentage and tupe of recycled content. Just saying "recycle paper" isn't enough. "Recycled paper" can mean anything from 100% true recycled paper to 1% re- manufactured ends of large paper rolls. "Post- consumer" mean the paper that you and I return to recycling centers.

Choice

Match

What does "Post- consumer" mean?

No, they aren't.

Are all recycled paper products the same?

To help consumers know what they are buying in a paper product.

Can newspapers be recycled?.
